## Ewok Assault Catapult Challenge

*“As an Ewok warrior, I want to design a catapult that shoots farther than any before, so that we can defend our forest home from Imperial forces positioned beyond our current weapons' range.”*

### Game Overview

We'll split into teams of 3-4 builders. Each team will have 30 minutes to design and build a catapult to launch a Skittle using only the supplies provided. Hot glue may only be used to attach your bottle cap to one of the craft sticks. Once build time is complete, each team will launch 3 boulders (Skittles) across the Sprout office. The team that launches their boulder the farthest wins!

### Your Supplies:

- 15 craft sticks
- 5 Skittles
- 20 rubber bands
- 1 bottle cap
- hot glue (shared)
